Part Number: RCS/M/M

When it comes to placing bait the RCS Multi Use Mouse Station is very versatile. The two bait reservoirs either side of the station have been sized to hold either 20g or 28g blocks, or alternatively loose bait such as grain or pellets.

The RCS Multi Use Mouse Station can also be supplied with a horizontal bar on which pasta or blocks can be fixed to help prevent removal of baits from the station.

As well as the wall bracket which the station clips onto, there are also two holes in the lid through which a cable tie can be threaded to affix the station to pipes or other wall fixings.

Take your rodent elimination to the next level with **RCS Snap Traps**, proudly distributed by Garrards Pty Ltd

RCS is an Australian owned and operated business.
