

Inside RCS Pro

Quicker servicing:

- + pre mounted vertical and horizontal bait holders.
- + lug locks horizontal bar in place.
- + one handed operation.
- + 1/8 twist to open with key.

Longer service intervals or ideal for high rodent population areas:

- + holds more bait than most competing products
- + light flood resistant with drain holes (ideal in washed down areas).

Designed for all baits (liquid, pellets, blocks & paste).
Glass reinforced rods

Outside RCS Pro

UV stabilized materials.
pre-printed stations available (private labelling).
pre-cutout holes for securing station.
station can be mounted vertically or horizontally.
fits in tight areas (e.g. Inside pallets for warehouses).
tamper resistant.
minimal areas for spiders to hide.
station is available in many colours (MOQ applies).
Slim and compact.
